‘Moving Forward to Improve our Youth’s Self-Esteem, Knowledge and Confidence’

Dedicated to Excellence

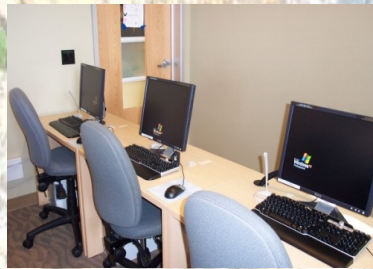

MISSION STATEMENT

In partnership with the Division of Youth Corrections and our Community, to enlighten and provide comprehensive educational programming for our incarcerated youth in a safe & secure environment.

OdysseyWare is an online educational program that has mirrored itself to directly correspond with the Colorado Department of Education standards. OdysseyWare is utilized to assess where all pre-adjudicated youth are academically. We then assign academic based courses for the student to work through at their own pace.

Direct Instruction

Here at the Marvin W Foote Youth Service Center we employ, through Cherry Creek School District, several certified teachers & staff support who provide direct-care instruction to our youth. Our classes focus on the education standards set in place by the district and the state. We strive to bridge the gap for students who otherwise do not attend school on a regular basis.
