Based on the Gold Standard PBL model, this three-day PBL 101 Workshop engages participants in learning how to design, assess, and manage a rigorous, relevant, standards-based project. The workshop models the project process. Participants are actively engaged in project design, with the expectation that every teacher or teaching team will generate a project plan that receives formative feedback from the facilitator and participants.

## **PBL 201 WORKSHOP - Improving the Quality of Student Work:** *(Prerequisite: PBL 101 Workshop)*

UPDATED content for 2020!! In this engaging and interactive workshop, participants will investigate and apply teaching practices and strategies that can help to strengthen the quality of student work in a PBL classroom. They will develop and reflect on a high-quality project, and will plan for project implementation in order to improve student products and enhance learning.

## **PBL COACHING WORKSHOP** - *(Prerequisite PBL 101 Workshop)*

The PBL Coaching Workshop provides instructional coaches and leaders with the knowledge and skills to support teachers in project implementation.
