

Sophomore Exploring!

Now that you have transitioned to high school, let's start talking about what comes next
Remember your ICAP? You will be building it this year by further exploring career options and ideas.

Sophomore year is all about exploring your options so that you can start planning for life outside of high school.

Here is where you are and where you will be going:

● Your Job As A Sophomore Is:

#1- Set your goal G.P.A. and get yours as high as it can go!

#2- **Start with the end in mind: You will be getting more Sophomore Materials this fall to help you start this process.**

- What are you interested in- what type of field can you see yourself working, enjoying and thriving in?
- What are the majors/trainings you need to get those careers/jobs?
- What schools offer those majors?
- What G.P.A and test scores do those schools want?

#3- Understand your needs:

- What does your transcript and credit standing look like?
- Continue creating good school habits
- Set real world goals for your future
- Know what "ACE" gaps you need to fill (*Academics, Community Service, Extra-Circular's*)

#4- Continue to use your tools:

- Check Powerschool at least once a week- NEVER take a 0!
- Get on Schoology to get all your class materials.
- Familiarize yourself with Naviance
- Start preparing now for the ACT and SAT with Khan Academy and Method Test Prep (on the OHS "Like a B.O.S.S. link).

● NAVIANCE : You will have Sophomore Tasks that will be required of you that you will be completing on Naviance

- This is your COMPLETE College & career-planning tool. Make sure you are checking this often
- **You can find out what careers & degree programs there are that are right for you**
- **All your planning & tools from Counseling are in the document library and on our website!**
- You can check/update your ICAP's & 4 year plans on here
- You will find colleges here
- You should already be on here 😊

● What does this year look like? You are Exploring so you can start Planning
