

Eaglecrest 11th Grade Registration Form for 2024-2025

Last Name: _____ **First Name:** _____

Student ID: _____

The chart below is to help understand how many electives will fit into the student's schedule. The back side of this form is for anything that needs to be communicated to your counselor regarding your classes next school year. Please note:

- Juniors will select a minimum of 6.0 credits: 4.0 core and 2.0 elective
- Juniors must have 1.0 credit each English, social studies, math, and science
- Juniors must take US History or AP US History (unless credit has already been earned) for graduation and can take additional social studies courses if desired
- Students cannot pick which semester or which period they have classes

Pick courses to fill each square in the grid:

- Yearlong classes are worth 1.0 credit and take up a full row (both semester boxes)
- Semester long classes are .5 credits and only take up one semester elective box

Notes on Electives: Spread out electives across different departments (for example: do not pick all PE classes since students can only take 1 each semester) and there is a better chance of classes working out. Students should not pick more than 2 first-choice elective classes per department. Use the back side of this sheet to see all of the elective options available.

	Semester	Semester
English		
Social Studies		
Math		
Science		
Elective		
Elective		
Study Period		
Study Period		

Alternate Electives: these must be DIFFERENT from your first-choice electives listed above in the event those options have filled. There is no need for alternates for core classes, world languages, or year-long performance classes like band. Alternates should be semester classes only and should not be classes requiring pre-requisites you haven't already taken.

Alternates	
1.	3.
2.	4.

If students and their parent are choosing a core class different than the teacher recommendation(s), please use the space below to explain the preference and why it is a better fit. EHS department coordinators will take this information into consideration before a final determination is made.

Are you applying for a CCIC course? If so, which class(es) should be dropped from your schedule on the first page to make room? You will be limited to 5 classes at EHS any semester(s) you participate in CCIC.

Are there any other specialty classes you plan on taking which are not currently listed on this form or in PowerSchool (examples are Sports Training, audition- or application-based classes, Elevation, and CTE courses)? If yes, please list the specialty courses and any classes listed in PowerSchool which will need to be dropped/replaced by the specialty course.

Please remember our Schedule Repair Policy!

The only schedule changes we make are repairs such as a level change when a student is enrolled in the incorrect academic level based on department coordinator discretion. We do not allow students to change classes based on preference. Student schedules are created based on the classes submitted through this registration sheet. We cannot make changes to switch electives from one class to another, change teachers, or have a study period at a particular time of day.

Registration Agreement

By signing your name below, you are acknowledging the following:

- *I am aware that my schedule will be built based on the requests chosen on this sheet and that my counselor will not alter my schedule if I change my mind or do not like the classes later. I have reviewed the course guide and realize I may be placed in any of my choices (including alternates).*
- *I am aware that the EHS staff will review my academic records and if it is determined that I need academic support classes put into my schedule, I may lose a world language or elective class.*
- *I have selected my first-choice electives from a variety of departments (no more than 2 courses per department) and have chosen different classes for my alternates in the event any of my first-choice electives are full.*
