Inclusive Higher Education

It's never too early to start thinking about college! Join us for a virtual (Microsoft Teams) meeting with Shelby Bates from IN! – Colorado Initiative for Inclusive Higher Education to learn more about college options for students with intellectual disability in Colorado.

Through inclusive higher education, students with intellectual disability are able to access support to succeed in college and their career. These supports are intended for students who would not meet the traditional college entry criteria and who benefit from using both accommodations and modifications.
