

Altitude 2020-2021 Supply List

We appreciate the time you are putting into providing the supplies needed to ensure a productive learning environment. Our innovative classroom design, learning spaces and seating within the room will be used in a flexible manner. At many other schools, individual supplies live in each student's immobile, stationary desk. At Altitude Elementary, your child will no longer be tethered to one spot just because that is where their supplies live. Instead, multiple supply stations will be set up around the room for your child to access exactly what they need to complete their learning task from a variety of locations within the classroom and school.

With this community idea in mind, please do your best to purchase items matching the color requested (when indicated) and free from characters and designs.

Thank you,

Altitude Staff
