What is ICAP?

ICAP is an Individualized Career and Academic Plan and is the foundation to graduation requirements for college and career preparedness. Through a multi-year *ICAP* process, students are able to explore and plan for academic, career and post-secondary opportunities. With the support of adults at home and school, students gain self-awareness, knowledge, attitudes and skills to create their own pathway to college and career success.

Life beyond high school is different than what it used to be. Three out of four jobs in Colorado will require education or training beyond high school. *ICAP* gives students ownership of a process to explore their unique talents and aspirations, explore career and postsecondary options, and create pathways to financial success after high school.

What is Naviance Student?

Cherry Creek School District has partnered with Hobson's to provide support and access to a variety of tools. *Naviance Student*, a web-based mobile platform that allows students and families to access online resources, communicate with school staff and plan for college and career, all in one place. *ICAP* is created, monitored and stored in *Naviance Student*.

Features in Naviance Student

Program features in *Naviance Student* vary by grade level, however, this is a great place where students can explore their learning styles, identify skills and interests, find career matches and majors, research colleges and scholarships and find enrichment opportunities. Students can also create an academic plan, develop a resume and when appropriate, request to send transcripts and letters of recommendations to post-secondary institutions of their choice.

Students may access *Naviance Student* anywhere there is an internet connection. Completion of *ICAP* is supported by comprehensive counseling curriculum.

College & Career Readiness

Students will write S.M.A.R.T (Specific, Measurable, Achievable, Realistic and Timely) goals, be exposed to careers and learn about high school readiness beginning in middle school. As students transition to high school, additional tasks of their *ICAP* will include academic planning, career and interest inventories, enrichment opportunities, resume writing, majors, and college searches as well as the ability to complete scholarship searches.

Students should utilize what they learn in *Naviance Student* to supplement other college and career related activities, such as attending career and college fairs, locating summer employment, internships or volunteer opportunities and preparing to meet with college admission counselors.
