Partnerships for Academically Successful Students (PASS)

PASS teams give parents and guardians of students of color a voice to provide perspective of their child's learning experience. The SVMS PASS team supports the district mission to provide a structure to intentionally build relationships between schools and parent communities.

Accountability Committee

The Accountability Committee will review how SVMS is meeting the goals for excellence and equity, for college and post-secondary success, for a safe and caring environment, and for partnering with students, parents and community members in the education process.

PTCO General Meeting

Twice a year, the PTCO hosts a general parent meeting. The PTCO determines a topic to share out with parents as well as updates on PTCO impact on Sky Vista.

These are just a few opportunities to connect with Sky Vista. Please feel free to reach out to us whenever you need!
