SPECIAL EDUCATIONAL NEEDS/INCLUSIVE EDUCATION POLICY

Alignment to Programme Standards and Practices

Standard A.4 → The school develops and promotes international-mindedness and all attributes of the learner profile across the school community.

Standard A.9 → The school supports access for students to the IB programme(s) and philosophy.

Standard B1.5 → The school develops and implements policies and procedures that support the programme(s).

Standard B2.8 → The school provides support for its students with learning and/or special educational needs and support for their teachers.

Standard C1.6 → Collaborative planning and reflection incorporates differentiation for students' learning needs and styles.

Standard C2.8 → The written curriculum provides opportunities for reflection on human commonality, diversity, and multiple perspectives.

Standard C3.10 → Teaching and learning differentiates instruction to meet students' learning needs and styles.

Method of Communication

All policies available to the community and staff on the Cherokee Trail Website. Staff are allowed editing privileges via Google docs and encouraged to revisit policies yearly.

Clearly Stated References to DP

Students enrolled in International Baccalaureate classes are afforded the same rights as all other students in the state of Colorado. All verified accommodations will be requested both in the classroom and for external examination. Approval or denial is dictated by the IBO.

Culture of Collaboration and Access for Inclusion

Cherry Creek School District and Cherokee Trail High School believe in providing essential resources for all students to access education, including but not limited to human support (i.e. Para Educators, Interventionists, school psychologists, speech language therapists, etc.), technology, transportation, instruction, and differentiation. To help ensure teachers are equipped with the necessary skills to teach all students, they are provided with essential information at the start of every school year to detail the needs of any student with a 504 or IEP, and they are given access to multiple professional developments within the school throughout the year to address different strategies to enhance their instruction.

As of the 2021-2022 school year, all students have been issued an individual laptop to increase student performance and access to a variety of tools including Speech-to-Text, Google Translate, Talking Points, and audio books/texts. Through these tools, the Cherokee Trail teaching staff has received training on multiple programs to enhance differentiation.

Explanation of Alignment with Legislation and Policy

The Individuals with Disabilities Education Act mandates that “to the maximum extent appropriate, children with disabilities...are educated with children who are not disabled, and special classes, separate schooling, or other removal of children with disabilities from the regular education environment occurs only when the nature or severity of the disability of a child is such that education in regular classes with the use of supplementary aids and services cannot be achieved satisfactorily” (IDEA 2004).

Gifted Education is addressed in the Exceptional Children's Education Act (ECEA) in the Colorado Revised Statutes. The Colorado State Board of Education promulgates the rules for the implementation of statutes. The rules provide the administrative framework for schools and districts for the provision of services to gifted students.

Cherry Creek Policy IHBA: Special Education/Programs for Handicapped/Disabled/ Exceptional Students

In keeping with the intention of the state of Colorado to offer educational opportunities to all students that will enable them to lead fulfilling and productive lives, the district shall provide appropriate educational opportunities to all resident students in accordance with the requirements of state and federal statutes. Any student identified as a child with disabilities pursuant to the Individuals with Disabilities Education Improvement Act of 2004 (the IDEIA) who is between the ages of three and 21 and who has not received a high school diploma, GED or otherwise graduated from high school has the right to a free and appropriate public education.

These students with disabilities shall be provided individualized educational programs appropriate to meet their educational needs, as determined by the student's individualized education program (IEP) team. A student identified as a child with disabilities under the IDEIA shall become eligible for special education and related services on his or her third birthday. A student reaching age 21 after the beginning of an academic year shall have the right to complete the semester in which his or her 21st birthday occurs or attend until he or she graduates, whichever comes first. Students with disabilities are required by federal law to be included in state and district-wide assessments, with appropriate accommodations where necessary. Any individualized education program (IEP) developed for a student with disabilities shall specify whether the student shall achieve the district's adopted content standards or whether the student shall achieve individualized standards which would indicate the student has met the requirements of his or her

IEP.

Equitable Access

Students are placed on Advanced Learning Plans (ALPs) or Individual Education Plans (IEPs) based on a process that can be initiated by parent, teacher, or student referrals. Students' plans are reviewed to make sure that students are having their needs appropriately met. This process may or may not include testing but does always include an ALP or IEP team that consists of teachers, parents, the student, and possibly administrators. All qualifying students are eligible for applicable accommodations under law.

Equitable access to traditionally underserved populations is also a priority of the Cherry Creek School district and Cherokee Trail High School. District and school goals consistently focus on narrowing the achievement gap between white/Asian students and black/Latino students. To this end, students of color are targeted for growth both systematically and individually through classroom instruction. High achieving students of color are regularly recruited for the IB. One example of our retention efforts is the IB Minority Club, which was created by students of color to support the retention and success of students of color within IB.

Rights and Responsibilities of All Members of School Community

The IB Diploma Programme Coordinator will communicate directly with counselors and Student Achievement Services Case Managers to understand and acknowledge any IB Diploma student who has an accommodation already in place. The Case Manager or Counselor will work with the DP Coordinator to help facilitate the acquisition of the necessary documentation for the DP Coordinator to submit requests for inclusive access arrangements to the IB.

If a current IB student is identified as needing a 504 Plan or an IEP implemented, the Diploma Coordinator will be a part of the review process along with the following parties: student, student guardian/parent, school counselor and/or SAS Case Manager, classroom teachers, and school mental health professionals as required. Upon the review, the DP Coordinator will submit the request for inclusive access arrangements where needed.

As final steps, the DP Coordinator will communicate with the student, student's parent(s), and classroom teachers to share IB approved accommodations and assessment procedures.

Final Considerations

In order to establish goals and to maintain the current special educational needs/inclusive education philosophy, a committee will review and revise this policy annually. This committee will consist of IB parents, the Pupil Services Coordinator, the librarian, the DP coordinator and the

principal. Cherokee Trail will review and revise the special educational needs/inclusive education policy annually because of the changing needs of our population and to ensure that it continues to be central to our DP mission. The reviewed, revised version of the policy will remain housed on our website. Our hope is that a transparent special educational needs/inclusive education policy will encourage more students to engage in the Diploma Program education.
